**Coronavirus Update- Statement**  
Riyadh, Kingdom of Saudi Arabia, February 29, 2020

Our top priority is the health and wellbeing of our guests.

The G20 Saudi Secretariat is in ongoing communication with the World Health Organization (WHO) and the Ministry of Health in Saudi to closely monitor all developments regarding COVID-19 and the latest preventative measures. Enhanced measures taken by the Kingdom include incoming visitors screened and temperature checked at the port of entry and increased hygiene and public health awareness measures.

Based on careful consideration and advice, we will be continuing all G20 meetings and events. Delegates and media should continue to be accredited in the usual way. G20 visas that were issued to attend the meetings remain valid.

Updated advice will be provided should circumstances change.

Saudi Arabia is proud to be hosting the G20 Presidency in 2020 and looks forward to continuing to welcome the world to the Kingdom.

Further information about the G20 Events Calendar, can be found at:
